Language Module

eBaniya is available in a variety of languages of your choice. You can choose any one from English, Arabic and Spanish. If you require, we can also convert it into your own language.

Referral System

If a registered user finds a product useful and reasonably priced, then the user can refer the product to a referral user who is not a registered user, indicating the usage of the product and the low price. When referral user gets registered, referrer user will be given the bonus amount added to their account. This functionality is controlled by the admin and consists of N-Levels of Referral User benefitting from point add-on system that increases from the referrer user to the end referral user with any new registered user.

System Requirements

User Requirements

- ✓ Operating System: Windows, or Linux
- ✓ Web Browser: Internet Explorer or FireFox or Safari.

Web Server Requirements

- ✓ Operating System: Linux, or Windows
