

STEP 1

Customers who choose to buy either Short Cart or Power Cart clicks on “Buy Now” button, from where they are taken to “Client Details” page. URL:

http://www.akrostechnology.com/client_details.php .

STEP 2

Customers are required to fill up a form with their personal details in “Client Details” page (URL: http://akrostechnology.com/client_details.php). Fields marked with “*” are mandatory.

Customers also need to choose the Payment process through which they need to buy either Short Cart or Power Cart. There are two payment processes: PayPal Standard and PayPal Pro. Choosing either will lead to PayPal website.

STEP 3

Payment is complete in this step through PayPal website, where the customer needs to login to PayPal using their login ID and password. After successful payment, customers will be automatically directed to “Client Details” page (URL: http://www.akrostechnology.com/client_details.php) with the message “Your payment has been successfully completed...”

STEP 4

Step 4 involves verification process, where customers need to open their mail box (email id is the same used for registration in STEP 2). In the mail you will receive

- (1) Unique ID
- (2) Order ID and
- (3) A download link.

Customers need to click the “Download” link, where they will be directed to Verification Process page. In the verification process page, customers need to write the (1) Unique ID and (2) Order ID in the respective fields, which they received through email. After filling up the form, customers need to click “Submit” button.

STEP 5

After clicking on the “Submit” button, customers will be directed to “Product Download” page, where they will get a link which says “Download the package to your PC.” Clicking on the link will download the package to your PC.
