

How to Be Benefited with [Single/N level Referral Module ADD-ON](#)

Referral module has a succession for earning points by referring the products exhibited in the site to family or friends. Maximum number of unique reference given by any particular user is, the maximum point that user will earn. User earns certain points against each unique reference, if the referral user gets registered into the site. Below are the steps and the logic that works behind the referral module;

User Section

1. In order to refer a product to the other user them self need to register to the site and then login to the site, user need to navigate the site any view the details of the product which they wish to refer to any for their family or friends.
2. After the details is view user need to click on “Refer a Friend” link.

 Discounted Price:No discount is applicable for this product

Product information	
In Stock	Y
Product Dimension	2*2*2
Product Weight	2

Price Information	
List Price	\$32.00
Discounted Price	No discount is applicable for this product

Brands And Attributes	
Brand	Revlon
Attributes	None

Dummy testing test.

3. As user click, a form will be shown to user where user need to enter their friends name and their email address and if they wish they can also write a short note as a message and click on “Send Message” button.

EMAIL TO FRIEND

Email to friend

Your Name*	<input type="text" value="atpl test"/>
Your e-mail*	<input type="text" value="akt01test@gmail.com"/>
Friend's Name*	<input type="text" value="atpl user"/>
Friend's e-mail*	<input type="text" value="akt02test@gmail.com"/>
Your message*	<div style="border: 1px solid #ccc; padding: 5px; min-height: 40px;">Here is the product you were looking for, check out the link.</div>

4. As user clicks on send message button, a mail will be sent to the provided mail id along with the link for signup to the site and also with the details of the product being referred.
5. If that user gets registered to the site with that ID only on which, the mail for the reference has been received then in that case the referring user will get certain point added to their account, which can be viewed at my account page.
6. Reference for the user should be unique as, point will only be added to referring user's account once the referred user gets registered to the site and for registering in the site Email-ID should be unique.
7. This Add-on of two types this can be taken as single level point calculation or multilevel point calculation.
8. When it is at single level then, only the referrer will receive points, but when it is at multilevel, then it will be in succession.

Multilevel Referral Bonus

9. The level of succession will depend upon the point admin has set as the bonus point for the referrer to receive.
10. To explain this in details let me please explain with an example, suppose A is a registered user.
 - a) A referred a product to B.
 - b) B gets registered so, A will get few points against the reference, now B referred a product to C.
 - c) C gets registered, now B will get few points against the reference and also A will receive one point lesser to B as reference bonus.
 - d) This reference bonus level will be equal to the point which admin had set against the reference bonus, and reference bonus will be reduced by one to the former referrer as the chain for reference increases.

Admin section

1. As referral users get themselves registered to the site they are shown at user list and at the same time they are also shown at Referral details page.
2. Admin has an option for setting the bonus point that user will get after their referral user will be registered. Admin needs to enter the point value and click on **“Save”** button.

Referrer Point Earned

Edit Bonus Amount

REFERRER BONUS

Bonus Amount :*

3. As the referral user gets registered, the referrer user will be given the bonus amount added to their account, and that is displayed at **“Referrer Point Earned”** page.

Search Users

Users

SI.NO	Full Name	Email	Bonus Amount
1	atpl test	akt01test@gmail.com	6
2	akt test	akt02test@gmail.com	0
3	Atpl User	testmail.akros@gmail.com	0

For Multilevel Referral Bonus

4. For Multilevel, suppose **“atpl test”** User referred a user named as **“atpl user”**.
5. Then **“atpl test”** will receive **6** points as reference bonus.

Users			
SI.NO	Full Name	Email	Bonus Amount
1	akt test	akt02test@gmail.com	6 
2	akt04 test	akt04test@gmail.com	0
3	atpl user	akt01test@gmail.com	0

6. Again “atpl user” referred “test user” and it got registered, then “atpl test” will receive 5 points and “atpl user” will receive 6 points.

Users			
SI.NO	Full Name	Email	Bonus Amount
1	akt test	akt02test@gmail.com	11 
2	akt04 test	akt04test@gmail.com	0
3	atpl user	akt01test@gmail.com	6 
4	test user	akt3test@gmail.com	0

7. Now again if “test user” referred any other user and that user gets registered then “test user” will get 6 as bonus point and “atpl user” will get 5 as bonus, “atpl test” will get 4 as bonus.

Users			
SI.NO	Full Name	Email	Bonus Amount
1	akt test	akt02test@gmail.com	15 
2	akt04 test	akt04test@gmail.com	0
3	atpl user	akt01test@gmail.com	11 
4	test user	akt3test@gmail.com	6 
5	atpl t	akt5test@gmail.com	0

8. This succession will continue up to 6 levels, after the level moves to seventh, then the first referrer will receive zero bonus point. But, up to that level as much reference user sends and the referral gets registered, referrer will keep on receiving bonus points against the reference.
